Here's a list of your Officers, Board Members and Committee Chairpersons, if you have any questions, suggestions, comments or just want to chat, give them a call.

The Prez Sez:

Traded cars again!

If you haven't heard, I did it again. The 48 Plymouth was one of the best drivers I ever had. I finally got the paint addressed, it was looking great. Perfect time to trade, Brenda doesn't understand, (maybe I don't understand either)...but

If you have known me for any time you'll remember the 5-6 year love/hate affair I had with the project 41 Plymouth woodie. I never completed that project, and have always wanted a Wodden car, problem is they have sky-rocketed in price and are out of my reach.

OK, so I decided to put the 48 on Hot Rod Hot line, for sale or trade. I got 5 offers very quickly, 3 were nice model A coupes but nothing I really wanted. There was a 32 sedan delivery (glass) but the paint design was not to my liking and I would have to do a total repaint. I was trying not to trade into a paint job.

The interesting offer was this little "phantom woodie". Best way to describe it would be a full sized match box car. Funny thing is I looked at the car 2 years ago (different owner) but decided they wanted too much for the car.

There were some comfort issues, no AC, bolt on door glass, etc! But I was interested in the car and had a lot of ideas for it, but not for his asking price. So nothing happened with a

deal.

So 2 years later the woodie is now in the hands of a collector/dealer. He answered my add and had me look up another Hotline add. There was the little phantom woodie again, same price. I responded to him that I wasn't interested in the car for that price.

We exchanged some photos, and info, he offered a trade deal. More photos and info exchanged and we made a deal. He also agreed to split the cost of an AC kit.

It's a 1931 frame, cowl, windshield posts, with custom hood panels with a 33 ford grille.

All those parts are metal except the grille shell. Car was built as a hi-boy, who needs fenders anyway. The body is a one off custom design built using Maple and Birch. The wood work is very nice, done by a cabinet maker in Maryland. Build was completed in 2000.

I have gotten started with some of the ideas I had for the car, slow going as it's usually 190 degrees in the garage. The car came to me from Seattle and by now is probably ready to go back after spending a few months in my phoenix garage.

So should have it road worthy with AC and the other changes in another few months.

Surf's up.....Dude!
