Here's a list of your Officers, Board Members and Committee Chairpersons, if you have any questions, suggestions, comments or just want to chat, give them a call.

The Prez Sez

Well, it has been several months since I have contributed to our newsletter. Many thanks to Dave, Larry, Jim and Jan for giving me a break. I'm sure you enjoyed traveling with Dave in his Caddy pulling his trailer through the Northern states, learning about all of Larry's hot rod trades, Jim's adventures as a "Novice Car Guy", and Jan and Pepper tagging along with Ron on another adventure to California. I know I enjoyed reading their contributions.

The 3rd Saturday breakfast runs are doing great. Everyone is pitching in and doing their part putting them together. I really enjoyed the March run to Cave Creek put on by Larry and Teresa. They did a great job getting us in to Harold's Corral for a great breakfast, and then off to a couple of really neat collections of old motorcycles. The first stop was at Dan's house, only a mile or so from the restaurant. He has quite a collection of 1930's Harleys, one of which sits in a special made spot in his living room. And yes, it had a pad under it to soak up the oil. We were then off to Mike's place which was really interesting. He had a great "working shop" and builds bikes and is currently in

the process of building a 1934 Ford 1 1/2 ton flatbed truck. He also had a really neat Diamond T, 6' x 8' bed, sleeper equipped, Chevy powered hot rod for hauling around his bikes. He did have some neat bikes, one old 1930s Harley with decals from all 48 contiguous states on it. He called it the traveling bike. It always amazes me that there are thousands of neat places like these tucked away all over in this great country of ours.

Oh yes, and there is my latest project, a 1941 Ford pickup. Danise had been wanting me to get another project ever since I finished the '37. I now have 9000 miles on the 37 in a year or so and believe it is about as done as it will get. So about the pickup, it was about 2/3 complete when I bought it a few months ago. A gentleman in Dewey passed away in the process of building it and his wife was having a friend sell it for her. I knew when I saw it that this was what I needed to keep me out of the house for a year or two. It is now about 1/3 complete. You guys know how it goes, don't like that, need to change this, better check that, etc. The new engine should be here next
