## The Prez Sez:

Well it's been really steamy in my garage the past few weeks. A lot of that was generated by my chubby warm body in the warm garage. Been cleaning, checking and making minor adjustments to the latest ride.

Yes it's true the wooden car is gone. It just was not going to work out. FUN ride for sure but wood has some issues here in AZ. The car dried out considerably since I got it, and it was developing some stress cracks after the San Diego run.

New owner is not concerned about that, and the car is now in Galveston so it will regain some much needed moisture.

Bob Bailey and I ...  
In my cousin Nicks truck and trailer, THANK YOU NICK!  
... Took the wooden car to Pecos and to meet the person who traded with me, we brought back a big ole 1950 Chevrolet.

I say "big ole" because it's the newest and biggest ride I have had, maybe ever. This time I went for something that would hold the road a little better.

Car was built in 2005-2006, by Streamline Hot Rod parts of Colorado. Guess it was used to demonstrate some of the products they were selling. It spent time on the circuit as a demonstration car for their products.

I will eventually change the stance a bit, not sure I can get used to the low rear look. Anyway it seems solid, well built and runs strong.

Not going to get cooler anytime soon so I'll chip away at things little by little. Nothing big planned or required for this one.

So I know I'm not the only one with a new ride, a changed ride or who's working a project. How about sending something in to the editor so it can be shared with the "gang"?

We have lots of activities just ahead of us, you know how it ramps up after the summer slow down. Good-Guys is not that far in front of us also. Remember to let me know if you want/need to change your job assignments, or shirt size. I will be sending the shirt order in a week or so.

## “2011 ON THE ROAD AGAIN Branson & Minneapolis” by DEE

Wednesday, June 8, Paul and Judy Nolte in their '56 Plymouth Station Wagon, Barney and Donna Wilkins in their '57 Ford Wagon, and Ken and I, in our '38 Chevy, headed for Minnesota and the Back To The 50's car show, via Branson, MO, (of course, since it was on the way). We pre-arranged to meet Conrad and Michelle Monroe in Holbrook for lunch and well wishes, as they stayed home due to the fires in the area.

Our first night was in Moriarty, NM; second day, through Texas to Oklahoma State line. Saw results of what looked like a tornado...was very windy driving, stayed in Oklahoma City. Day three had rain and we waited for storm to let up some. Took the turnpike to Joplin, MO and saw the disaster area. So sad to see all the destruction a tornado can do. Made it to Branson, MO and checked out the main drag.

We had reservations at a motel in Branson and four shows: Saturday evening, Shoji Tabuchi (a Japanese fiddle player & Company); Sunday evening, the Shepherd of the Hills, outdoor play--story of how one man helped the Branson town folks. Had live horses and cattle, villain, gunfights, burning of a cabin, dancing, romance...when you get to Branson, you need to see this play. Monday afternoon, the Pearce Arrow Theatre-- men's quartet and between songs, the funniest comedian you'll ever see...we laughed until our sides hurt; and Monday evening, the Baldknobbers...great music along with hillbilly comedians. All four were great shows!

Days four and five we did some sightseeing of the fish hatchery, the dam and lake, stopped by the ShowBoat to check it out, went to the Branson Auto Museum, and the Veterans' Museum. We visited the future church of Pastor Dale and Jeannie Daly who conduct the religious services for the Goodguys shows. They moved from Northern California to Branson to be more centrally located to accommodate all the Goodguys shows. Jeannie took pictures of our 3 cars in front of the church and it will probably appear in their bulletin they mail out.

Monday we stopped in Des Moines, Iowa to visit Ken's elderly sister-in-law in a home; and with the help of the Fellow Pages, Paul found a garage and had a U-joint replaced in his car, so that worked out fine. We spent the night in Waterloo, IA, Barney's hometown. Finally made it to Minneapolis on Thursday, got checked into our motel, went to host hotel to register. About 2000 cars all around that area, no place to park, folks just stayed there in chairs watching the cars come and go...BIG car show! Friday morning, we followed Denny and Alana Larson to the fairgrounds, since they live there. They visited our club meetings a couple of times...live here in Mesa in the winters. We fortunately found 4 spots together. We gals took the bus to Mall of America, they had a bus every half hour to and from the Mall. On Saturday, we headed out at 6am

and found 3 spots just inside the main entrance, across from the bandstand where they have entertainment daily and do the give-aways on Sunday. It rained on and off all day (biggest day of the show). While at the fairgrounds, we walked and walked, ate cheese curds, walked and walked, had a pork chop on a stick...YUMMY, walked and walked, had a bucket of chocolate chip cookies...fresh made and still hot, and walked and walked. Ran into a couple from the San Diego OTHG, nice visit. Denny arranged for a friend of his in the Twin Cities OTHG to take us on a tour of the fairgrounds in his home built covered trailer, pulled by his 4-door model A. The car show was just short of 12,000 cars! On Sunday about noon, we left the show with the Larsons who took us on a 1-2 hour tour of the city, which ended up being 3+ hours, seeing the Capital, Cathedral, marvelous homes in an exclusive district, park with beautiful waterfalls, and around to some other great sights of Minneapolis, including a 'glass fish,' and a 'cherry on a spoon.' We stopped at a drive-in for a nice cold mug of root beer, then on to Eden Prairie at their home for brats and hamburgers. And NO MORE WALKING, JUST RELAXING! What a neat couple!

We left Minneapolis Monday, had rain and stayed the night in Columbus, Nebraska which was under a tornado watch. A little scary! Had lots of rain...fields soaked with water, was windy and rainy. Stopped at Minden, NE to see the Harold Warp Pioneer Village Museum. WOW--if you're ever out that way, it's a MUST SEE! Windy, very windy again! Next day, Marino, CO and Wisdom Industries. Judy arranged for a 9:00 a.m. tour of their shops and the "building" of carnival rides, from sketches to the finished ride. Another MUST SEE! We stayed in Las Vegas, NM and headed to AZ and home on Thursday.

In Holbrook, the Wilkins said good-bye and went on through Flagstaff and their home in Parks. We were going to go back through Heber to Payson, but the road was closed due to another fire! Had to go to Show Low, then down to Heber. Sooo, we stopped at Monroes' to visit a short while, and enjoyed an ice cream sandwich with them. Then on toward Phoenix, only to get stopped East of Payson for a highway chip sealing process. Waited 40 minutes there for one line of cars to come through, 200+ cars coming East, before we could go West. The weather was very hot now... realized what nice cool weather we had had throughout our trip. The Noltes turned off the 101 at Cactus and we continued on getting home about 7:30 p.m.

This was another beautiful trip we will remember, especially due to the 1775 pictures I took and also those of Judy and Donna's as well. Conrad will have some work ahead of him after we upload our special memories to him. Now Conrad, take a deep breath....
